# 13 Colonies Foldable

Directions: Follow the steps below to create a foldable to help you name the thirteen colonies and their regions.

Step 1: Fold your colored piece of paper hot dog style and cut the front into three equal tabs.

Step 2: Cut out the three separate regions that were given to you (you don't need to be perfect.

Step 3: Paste the New England Colonies onto the top tab, the Middle Colonies onto the middle tab and the Southern Colonies onto the bottom tab. Label each tab with the region's name.

Step 4: Number each colony 1 – 13 (order doesn't matter but it is easier to go from top to bottom).

Step 5: On the inside of each tab, write the corresponding numbers and to correct name of each colony. Make sure you spell them correctly.

Step 6: Study!!! Tomorrow you will have an assessment where I will give you a labeled map and you will have to identify some of the colonies and then when given some of the colonies, you will need to tell me to which region they belong.

Hey, I just met you
And this is crazy
But I'm your teacher
So study maybe.
